

הפלט לטסטר של Time1 הוא:

The hour of first Time1 object is: 2
The minute of first Time1 object is: 15
The second of first Time1 object is: 32
The hour of second Time1 object is: 23
The minute of second Time1 object is: 20
The second of second Time1 object is: 45
Is the first time equal to the second time? false
Is the first time before the second time? true
Is the first time after the second time? false
The difference in seconds between the second and first time is: 75913
The string representation of the first time is: 02:15:32

הפלט לטסטר של Time2 הוא:

The hour of first Time2 object is: 18
The minute of first Time2 object is: 33
The second of first Time2 object is: 59
The hour of second Time2 object is: 16
The minute of second Time2 object is: 55
The second of second Time2 object is: 21
Is the first time equal to the second time? false
Is the first time before the second time? false
Is the first time after the second time? true
The difference in seconds between the first and second time is: 5918
The string representation of the first time is: 18:33:59

הפלט למסטר של BusArrival:

The line number of the first BusArrival object is: 20

The number of passengers of the first BusArrival object is: 55

The arrival time of the first BusArrival object is: 10:00:00

The line number of the first BusArrival object after re-setting it is: 35

The number of passengers of first BusArrival object after re-setting it is: 24

The arrival time of the first BusArrival object after re-setting it is: 12:20:15

Is the first bus full? false

Is the second and third BusArrival objects equal? true

Is the second BusArrival before the first BusArrival? false

Is the third BusArrival fuller than the first BusArrival? true

The elapsed time between the second and the first BusArrival objects is: 234

The string representation of the first BusArrival object is: Bus no. 35 arrived at
12:20:15 with 24 passengers
